

Telehandler Operation – Permanent Employment

Location: Cabuyao, Laguna, Philippines

Duration: 6 months' probation period / permanent employment

Job Requested Date: Jan 31st, 2025

Target Start Date: February 15th, 2025

Company description:

Founded in 2016, REurasia Management Corporation is a Philippines based company involved in Renewable Energies. We are focusing our efforts toward socially responsible energies with the biggest impact on our community.

Created from a Joint Venture with Full Advantage Philippines and international EPC professionals, REurasia is able to Develop, Implement and Operate Power Plants fueled with Biomass and/or Municipal Waste. Building Power Plants from the ground up, our services include: Project Feasibility Study, Permitting & Licensing, Equity Financing, Debt Financing, Technical Bidding Coordination, Project Management & Owner Engineering and Operation on a broad range of technologies and suppliers.

Reurasia is supporting the local community's best interest by developing and supporting green and sustainable projects in the Philippines.

Among other, our team has a proven expertise over South East Asia (India, Thailand and Philippines) and accumulates more than 182 MW generating power capacity field experience of Renewable Energy Power Plants.

Specialized in Biomass, Solar and Waste to Energy Power Plants, our team guides clients through all the life of their project including the development, the construction and operation.

Job description:

We are looking for a skilled **Telehandler Operator** to support the **fuel and ash handling operations** of an **18TPH Biomass Boiler**. The operator will be responsible for the **safe and efficient operation of a telehandler** to transport biomass fuel (multi-fuel boiler) and manage ash disposal.

The ideal candidate must be **certified, safety-conscious, and experienced** in handling telehandlers in an **industrial or power plant environment**. He/she will work closely with the fuel and ash handling

 <p>REURASIA MANAGEMENT CORPORATION</p>	<p>www.reurasia.com +63 917 659 5595</p> <p>21th Floor, 8 Rockwell Building Hidalgo Drive, Makati City Philippines, 1210</p>	<p>Document Reference: REUBHRJB11R0</p>
---	---	--

team to ensure **continuous and efficient plant operations** while complying with **Philippine safety and environmental regulations**.

Responsibilities:

- Operate a **telehandler** to transport, load, and unload **biomass fuel and ash**
- Assist in **fuel yard management**, ensuring proper stacking and handling of biomass materials
- Safely **dispose of ash and other waste materials** according to environmental regulations
- Conduct **pre-start and post-operation inspections** of the telehandler to ensure it is in good working condition
- Perform **basic maintenance and troubleshooting** of the telehandler and report any mechanical issues
- Follow **permit-to-work (PTW) procedures** and adhere to safety standards set by the company and government agencies (DOLE, DENR, etc.)
- Coordinate with the **Fuel/Ash Handling Operators and Plant Operators** to ensure smooth operations
- Comply with **load limits and handling requirements** to prevent damage to equipment or fuel stockpiles
- Participate in **safety drills, toolbox talks, and operational training** as required
- Maintain accurate **log sheets and operation records** as required by plant management

Qualifications:

- High school diploma or equivalent
- TESDA NC II Certification in Heavy Equipment Operation (Telehandler or similar equipment) is required.
- Professional Driver with driving restrictions 1, 2, 3, and 8.
- At least two (2) years of experience as a Telehandler Operator, preferably in a power plant, industrial facility, or construction site.
- Knowledge of DOLE Occupational Safety & Health (OSH) standards and DENR environmental regulations for fuel and ash handling.
- Experience in biomass fuel handling (wood chips, rice husk, bagasse, etc.) is a plus.
- Performs routine preventive maintenance on the vehicle daily and assists in performing minor repairs.
- Physically fit and capable of handling manual labor when required.
- Strong attention to safety, hazard identification, and risk assessment.
- Willingness to work in shift schedules and during emergencies if required.
- Willing to work overtime as required.

Must be available to start immediately.
